## Projects of the KSS

### ? **The Kentucky Sinkhole Project**

This is an effort to digitize all of the sinkholes in the state of KY at a 1:24,000 scale. This work is being performed as a co-project of the KSS and the KGS.

### ? **Map Archive**

We are currently actively soliciting for and accepting additional data for our map archives. Our biggest hurdles to overcome are the lack of location information on many of the maps as well as the overwhelming scale of the project.

- ? Generalized cave location data
- ? County-by-County statistics
- ? Closed Cave List
- ? Caving groups active in Kentucky

## Volunteer Opportunities

The KSS is always looking for motivated volunteers to help out on our projects. To find out more, send an email to [contact@ksscaves.org](mailto:contact@ksscaves.org), call us at 859 – 257 – 5500 or send a letter or postcard to our address.
